

Subsidised Seminar

Marine Insurance & Claims

Frederick University, Frederick Training & Examination Centre and DNV GL introduce Certified Professional Training Courses applicable to the whole Cypriot Maritime Network and have approved by Human Resources Development Authority of Cyprus (HRDAuth).

It is commonly agreed that the Institutional capacities, the professional skills, knowledge and expertise of the personnel – whether active or about to enter the market – must be maintained on the highest level in order for Cyprus to maintain its leading position in the maritime sector.

FU, FTEC and DNV GL in response to the severe skills development needed in the maritime sector (direct and indirect) introduce short cycles Professional Training courses designed to meet the continuous need for skilled labor in the most demanding and rapidly changing areas of the shipping industry.

The following seminars lie on three major sectors of the shipping industry, i.e. *Shipping Finance*¹, *Superintendent & Hull Structures*¹ and *Marine Insurance & Claims*.

Who should attend?

The training program is addressed to employees of enterprises/organizations who are Shipping or Shipping related BSc or MSc graduates.

Trainees will receive a Certificate of Attendance.

Seminar Support

Participants will have access to the necessary equipment of Frederick University as well as access to supporting material without further charge.

Where and when

Venue: The courses will be held in the Frederick University Accredited Classes at Limassol Campus
Address: 18, Mariou Agathagelou Str., Agios Georgios Havouzas, Limassol 3080 - Telephone: +357 25730975

Date & Time: October 29th – November 1st
Time: 14:15-19:30

Seminar Cost and Duration

The seminar's duration and participation cost is presented on the table below:

Seminar Title	Duration	Participation Cost (€)	HRDAuth Subsidy (for beneficiaries) ²
Marine Insurance & Claims	20 hours (4 days)	€450.00 + 19% VAT	€340.00

¹ Conducting dates will be announced shortly.

² Beneficiaries: working in enterprises/organizations (€340.00 subsidy) and unemployed parties (100% subsidy) provided that they satisfy the conditions laid down by the HRDAuth. No financial support is provided for self-employed and public servants. Beneficiaries pay the difference of participation cost that remains after the HRDAuth subsidy. For unemployed beneficiaries the participation is free.

Instructor's Curriculum Vitae

Patrick Donner, PhD (LLM)

Patrick Donner, AFNI, received an LLM from the University of Turku and having qualified for the judiciary, served on the bench for five years. He worked for 14 years in executive positions in shipping companies in Finland (tankers, ferries and cruise) after which he had his own law and management consultancy firm for a few years. During all this time he taught maritime law (part-time) at the Maritime Academy of Åland and also held numerous non-executive positions on boards of directors of shipping and insurance companies as well as elected public office at local level. Patrick Donner joined the World Maritime University (WMU) as Associate Professor in Shipping Management in 1995 and served as Associate Academic Dean from 2006 until February 2017. Mr. Donner was also Programme Co-ordinator of the Postgraduate Diploma course (by distance learning) in Marine Insurance (2005-2018) and continues to lecture in WMU's MSc programme in International Transport and Logistics at Shanghai Maritime University. He is a visiting Associate Professor in the Maritime MSc and MA/LLM programmes of Frederick University in Cyprus.

Nicholas G. Berketis, PhD (Actuarial Science)

Nicholas G. Berketis is Manager of J. Kouroutis & Co. Ltd. Insurance and Reinsurance Brokers, Piraeus, Greece and Visiting Lecturer at Frederick University, Cyprus. He holds a PhD in Actuarial Science and MSc in Shipping, Trade & Finance from Sir John Cass Business School, The City University, London, UK, and BSc (Hons.) in Economics from the University of Athens. He is a member of the Economic Chamber of Greece, the Piraeus' Professionals Chamber and the US Propeller Club, port of Piraeus. His research area is Marine Insurance with emphasis in areas of Piracy, Fishing Vessels, Ferries, etc. This research has been presented in professional and academic conferences and published in journals and the press.
