

Course Title	International Trade and Shipping Management			
Course Code	DLITSM 501			
Course Type	Required			
Level	MSc (Level 2)			
Year / Semester	1st Year / 1st Semester			
Teacher's Name	Dr Sergey Popravko, Mr George Kiourktsoglou			
ECTS	8	Lectures / week	2	Laboratories/week NONE
Course Purpose	<p>This module is intended to prepare the postgraduate professional for general functions within an international trade and a ship-management environment. The purpose is to impart broad yet specific knowledge on maritime economics and global business management. The participant will develop an in-depth understanding of how the world shipping markets operate and how specific management tools and practices promote success and growth in this global industry.</p> <p>The module aims at providing an in-depth understanding of the dynamics that guide global industrialisation and economic development thus building confidence and skills, at a managerial level, and facilitating mobility within the global marketplace.</p>			
Learning Outcomes	<p>By the end of the course, the students should be able to:</p> <ul style="list-style-type: none"> • Reflect and critically appraise the key factors related to international seaborne trade economics; shipping markets and shipping cycles; and of maritime safety and the seafaring labour market; • Assess the key issues of globalization and the nature and structure of international business; the culture of a 'global enterprise'; the effects of the geo-political environments and the role of national and supranational regulatory agencies and the strategic environmental factors; • Examine the impact of global financial, economic and socio-economic and socio-cultural factors; the importance of natural resources and the impact of industrialization. 			
Prerequisites	NONE	Co-requisites	NONE
