- Ethics and Marketing Research

## **3. Defining the problem and determining Research Objectives**

- Establishing the need for Marketing Research
- Defining the Problem
- Establishing marketing research objectives
- Formulating marketing research proposal

## **4. Research Design**

- Exploratory research
- Descriptive research
- Causal research-Test Marketing

## **5. Using secondary data and on-line information**

- Classification of secondary data
- Internal databases
- External data
- Locating secondary data sources

## **6. Qualitative methods**

- Focus Groups
- Interviews
- Ethnographic research
- Observation techniques
- Other qualitative methods

## **7. Survey Data-Collection Methods**

- Modes of data collection
- Choice of survey method

## **8. Measurement in marketing Research and questionnaire design**

- Basic Question-Response Formats
- Levels of Measurement Scales
- The Questionnaire Development Process
- Questionnaire organization
- Computer assisted questionnaire design

## **9. Selecting and Determining sample size**

- Basic concepts in Samples and Sampling
- Sample size

## **10. Data Collection in the Field, Non-response Error, and Questionnaire Screening**

- Errors
- Field data collection quality controls

	<p><b>11. Data analysis and research report/presentation</b></p>
	<p>The taught part of this course is delivered to the students by the means of thought 3 hour lectures per week with the help of power point presentations. Video and other visual material is also used to demonstrate the application of the course's content by real life companies and to provide students with information by experts (e.g. CEO's, marketing professionals).</p> <p>In addition to the lectures, students are encouraged to participate in active discussions, questions and answer and debates. In class group work involving brainstorming and cooperative learning is an important part of this courses teaching methodology. Students are often requested to work on small tasks/challenges or short case studies in order to consolidate the theoretical concepts taught.</p>
