<b>Course Code</b>	<b>MLSB 501</b>				
<b>Course Type</b>	<b>Required</b>				
<b>Level</b>	<b>LLM (Level 2)</b>				
<b>Year / Semester</b>	<b>1<sup>st</sup> Year / 1<sup>st</sup> Semester</b>				
<b>Teacher's Name</b>	<b>Dr Sergey Popravko, Mr George Kiourktsoglou</b>				
<b>ECTS</b>	<b>8</b>	<b>Lectures / week</b>	<b>3</b>	<b>Laboratories / week</b>	<b>NONE</b>
<b>Course Purpose</b>	<p>This module is intended to prepare the postgraduate professional for general functions within an international trade and a ship-management environment. The purpose is to impart broad yet specific knowledge on maritime economics and global business management. The participant will develop an in-depth understanding of how the world shipping markets operate and how specific management tools and practices promote success and growth in this global industry.</p> <p>The module aims at providing an in-depth understanding of the dynamics that guide global industrialisation and economic development thus building confidence and skills, at a managerial level, and facilitating mobility within the global marketplace.</p>				
<b>Learning Outcomes</b>	<p>By the end of the course, the students should be able to:</p> <ul style="list-style-type: none"> <li>• Reflect and critically appraise the key factors related to international seaborne trade economics; shipping markets and shipping cycles; and of maritime safety and the seafaring labour market;</li> <li>• Assess the key issues of globalization and the nature and structure of international business; the culture of a 'global enterprise'; the effects of the geo-political environments and the role of national and supranational regulatory agencies and the strategic environmental factors;</li> <li>• Examine the impact of global financial, economic and socio-economic and socio-cultural factors; the importance of natural resources and the impact of industrialization.</li> </ul>				
<b>Prerequisites</b>	<b>NONE</b>	<b>Co-requisites</b>	<b>NONE</b>		
<b>Course Content</b>	<p>Indicative Course Content:</p> <ul style="list-style-type: none"> <li>• Maritime Economics in a Strategic Context.</li> <li>• International seaborne trade economics.</li> <li>• Economics of shipping markets and shipping cycles.</li> </ul>
